Donor Advised Funds. A simple and effective giving option that allows donors the opportunity to recommend grants on an ongoing basis and support one or many causes with just a single gift. We work closely with donors to award grants that positively impact the causes they care about.

Named Endowments. A gift to establish a named fund can benefit a designated purpose, name a designated recipient, or be given as undesignated to address changing community needs. Named Endowments offer the opportunity to create a permanent endowment with a smaller establishing gift, while still providing a lasting legacy.

Undesignated. An undesignated gift enables the Community Foundation to respond to communities’ most pressing needs in the areas of arts and culture, education, environment, health and human services, and youth - including future needs that cannot be anticipated at the time a gift is made.

Field of Interest. A gift can be designated to address needs and issues in a particular interest area(s). Grants are often awarded through a grant process and donors may participate as a member of this process. The Community Foundation Board ensures that grant awards are made to impact the interest area designated by the donor.

Scholarship. A donor can invest in our community’s future through our students. Donors may determine the criteria students must meet to receive the scholarship awards.

Designated Agency. A donor may give to establish an endowment to benefit a specific nonprofit’s mission and help provide ongoing funding for an organization making a positive impact in our communities.

GIVE NOW. GIVE LATER.
Donors have the flexibility to decide to give now or give later. Gifts today allow donors to experience the joy of seeing philanthropic dollars at work. For many, our greatest opportunity to leave a legacy will come with a gift later. A planned gift to the Community Foundation provides a lasting legacy for a donor’s passions.

LEAVE A LASTING IMPRESSION.
Any of these funds can be established in the donor’s name, in the name of family, an organization, or to honor another person. All grants are awarded in the name of the fund. It’s a great way to leave a lasting impression on what donors care about most.
